

Goutam

Java Backend Developer

📞 7795364761 | ✉️ goutambyte@gmail.com | 📍 Hyderabad, India

PROFESSIONAL SUMMARY

Java Backend Developer with **around 5 years of experience** building, modernizing, and supporting enterprise applications using **Java, Spring Boot, REST APIs, Microservices, SQL, and Oracle**. Experienced in API development, database integration, application modernization, financial reporting, testing, security remediation, debugging, and production support across technology, financial services, aviation, and retail pharmacy domains.

TECHNICAL SKILLS

Backend: Java 17, Spring Boot, Spring Framework, REST APIs, Microservices, Jakarta EE, Hibernate/JPA, MyBatis

Database/Integration: Oracle, SQL, Stored Procedures, Ehcache, JSON, Jackson, Apache HttpClient

Testing/Tools: JUnit 5, Mockito, Maven, Git, SonarQube, Black Duck, Veracode, Tomcat 10

Reporting: CSV, JasperReports, OpenPDF

PROFESSIONAL EXPERIENCE

Infosys Mar. 2024 – Present
Senior Associate Consultant
Hyderabad, India

Project: NOVA – Apple

- Develop and maintain enterprise backend services using **Java, Spring Boot, REST APIs, MyBatis, SQL, and Maven**.
- Modernized applications from **Spring Boot 2.6.x to 3.x** with **Java 17, Jakarta APIs, and Tomcat 10**, resolving framework and dependency compatibility issues.
- Migrated **Ehcache 2.x to 3.x** and resolved MyBatis dynamic SQL, parameter-binding, validation, caching, and database-integration issues, improving application stability.

Project: RKO Outbound – State Street

- Modernized legacy **Struts-based functionality to Spring Boot** and developed **REST APIs for financial reporting**, integrating Oracle **stored procedures** with business and data validations.
- Developed financial reports in **CSV and PDF formats** and migrated PDF generation from **JasperReports to OpenPDF**, resolving formatting, data-rendering, and compatibility issues.
- Remediated security vulnerabilities, dependency risks, and code-quality findings identified by **Black Duck, Veracode, and SonarQube**.

Data Template Jul. 2023 – Mar. 2024
Software Engineer
India

Project: IBS iFlight NEO – Airline Management & Compliance

- Developed Java backend components supporting **crew activity tracking, regulatory compliance, and violation-detection workflows**.
- Implemented business logic and notification workflows for processing operational data and communicating compliance violations to relevant stakeholders.
- Investigated backend and database issues and collaborated with QA and business teams to deliver application fixes and enhancements.

Marzer Technology Nov. 2020 – Mar. 2023
Associate Software Engineer
India

Project: Walgreens – Retail Pharmacy

- Developed and maintained **Java/Spring Boot backend services** for Walgreens' U.S. retail pharmacy platform, including **REST APIs, business logic, validations, and database workflows**.
- Supported application development, testing, debugging, code reviews, builds, deployments, and production issue resolution using **Maven, Git, and Agile/Scrum**.

EDUCATION

BKIT / Visvesvaraya Technological University (VTU) 2019
